

Things to do before the 28/10

- Website page promotion material - George
- Fix the tagging up a little bit -Diego
- change the format of the audio files and upload them onto the git.
- Connect the audio files up to the demo site - George
- Make sure all of the files on the Google drive are on the GIT.
- Are we still doing a video ? shelby
- 8ish minutes of talking about how we solved the problem - Aidan

Additional info for the speech:

Avoid

overly detailed, low-level, descriptions of technical aspects of the project.

Write 1000 words on the readme stating how we solved the problem and a lot of the same things that we talked about in the speech.

- Have all the documents referenced to from the readme in the git.
